- The Bodypillow™ is a unisex product which could help to promote a more comfortable sleeping posture allowing one to awake feeling refreshed and revitalized.
- The Bodypillow™ may help to keep your spine aligned while you are resting.
- The Bodypillow™ is invaluable to pregnant and breast-feeding mothers, people suffering from back pain, recovering from sports injuries or operations.
- The Bodypillow™ may help to provide support for the legs, neck and shoulders as well as the back.
- The Bodypillow™ may also be shared with your partner, therefore providing simultaneous support for both parties.
- The Bodypillow™ does not incorporate an attached head pillow section as this would limit its positioning options and also restrict freedom of movement under the covers.
- The Bodypillow™ is an inexpensive way to promote more comfortable rest.
